

The Pirates

해적 뉴팅 게임

Media & Entertainment

20191108 Kyuchan Shin

Background

This is a shooting game in which you ride a pirate ship on the sea and shoot other pirate ships with cannons.

Basically, ships move on the sea, and you can use your keyboard to shoot cannons at your opponent's pirate ship.

Concept

The concept of the game was thought of in the movie Pirates of the Caribbean.

Players who play the game get on a pirate ship and attack another pirate ship. Also, monsters of the sea, as well as other pirate ships, attack the pirate ship that the player is on, and the player must attack the monster to avoid it.

Explanation

1. Color Concept

The game will be played in the sea, so most of the backgrounds will be set in blue, the index of the sea.

2. Enemy

The Kraken and other pirate ships are the opposing team attacking players in this game.

3. Item

The default attack is to shoot arrows, and from the time a player acquires a cannon icon during the game, a strengthened cannon will emerge from the pirate ship.

4. Ending

If you take down all the enemies, you find the treasure of the sea, and the game ends
